

SPACELONX

TOKEN WHITEPAPER

WELCOME TO SPACELON X, A COMMUNITY DRIVEN TOKEN.  
SPACELON X IS A MUST HAVE FOR ANYONE IN THEIR  
WALLET.

OUR MISSION IS TO EDUCATE YOUNG PEOPLE, NOT ONLY  
IN THE WORLD OF FINANCE, BUT TO CREATE AN  
AMBITIOUS COMMUNITY, MADE UP OF PEOPLE WHO WANT TO  
ACHIEVE GREAT GOALS. OUR TASK WILL BE TO MAKE THEM  
HAVE SELF-ESTEEM AND INDIRECTLY CONTRIBUTE TO THE  
GROWTH OF THEIR FINANCES ALONG WITH THE GROWTH OF  
THE TOKEN.

Airdrop : 0x1eB43b2Fe3906458a1225d29Dd65305135D5E91D  
Marketing : 0xb69b014c0ed70060e89924c745a79237fa0c4cc5

EACH WALLET WILL BE LOCKED ON UNICRYPT.

# ECOSYSTEM

## SPACELON MASK

## SPACELON DEX

Safe and decentralized where it will be possible to exchange \$SPX, tokens and coins. The limit order protocol will be introduced, where you can use Stop loss and Take profit.

A safe and smart wallet that will allow the community to store their digital assets like \$SPX

## SPX FINANCIAL ACADEMY

A training academy, accessible to all \$SPX holders. In which experts from the world of finance will be present to deepen your knowledge and teach you the world of crypto step by step.

# OUR VISION.

In the boom period of crypto, before being owners and creators of projects, we were and still are investors. By investing in many projects and participating actively in the various communities, we have noticed a strong disinformation in the crypto and finance world.

We have seen that many people are unable to emotionally and economically bear the pressure of the ups and downs from the market, especially when a currency plummets.

This panic can be due to various things including: a wrong mindset, little information or the wrong wallet management, exposing yourself to a greater risk than they should be exposed to.

All this context made us think a lot and led us to a question: "How can we educate people and make them autonomous in the world of crypto and classic finance?"

Thus was born [Spacelon X](#).

With this project we have decided to create "SPX Financial Academy" which will be the main pivot around which our ecosystem will revolve.

## **What is SPX Financial Academy in detail?**

SPX Financial Academy is a private and free academy for all [\\$SPX](#) holders. It will be a path that will start from the basics of classic finance and crypto up to a more advanced level.

Our goal is to create training groups on various social networks where finance and crypto experts will share their knowledge with you.

We will make weekly zooms with industry experts in addition to the didactic material shared daily.

In addition to the training groups, another group will be created consisting of members of the SPX team and the

community holding the token. In this group the main purpose will be to analyze and discuss other crypto projects with potential.

Finally, it will be possible to access our digital platform and find all the recorded video lessons and the didactic material used.

\*All SPX Financial Academy services will be free and available to token holders only.

# CREATION OF THE ECOSYSTEM.

## (1.1)

### THE ECOSYSTEM.

As previously mentioned and repeated several times, the SPX project wants to create an ecosystem to give utility to the token.

The platforms that we will explain serve to give greater stability to the project and ease of use for users.

### SPACELON DEX.

The first product of the SPX ecosystem to be released by the team.

It is not a simple swap, but it is composed of:

- **Stop loss order:** based on the conditional orders feature, a stop-loss order is executed when it reaches a particular price point set by the user. When the price limit is reached, the open position will close to prevent further losses.
- **Take profit order:** based on the conditional orders feature, a Take-profit order is executed when it reaches a particular price point set by the user. When the price limit is reached, the open position will close to take profit.

- **Trailing stop order:** In a sell trailing stop order, also implemented on the conditional order feature, the user sets the stop price at a fixed amount below market with an attached ‘trailing’ amount. If the market price increases, the stop price rises by the trailing amount. If the price falls, the stop-loss price remains unchanged.
- **Multichain:** The protocol is available on BNB chain and ETH
- **Charting:** You can view the graphs of the tokens in the Bep-20 and Erc-20 network directly from the Dapp.

# CREATION OF THE ECOSYSTEM.

## (1.2)

### SPACELON MASK.

The second product released by the SPX ecosystem.  
The main features and services of the wallet are:

- Staking of the \$SPX token directly in the wallet;
- Top level security: All transactions are protected as the wallet parses call data, showing what is happening in a user-friendly manner.
- Instant transaction signing : Regardless of their size, transactions can be instantly approved and signed including via WalletConnect.
- Advanced transaction management : Traders can cancel sent transactions or adjust gas prices in order to speed up the execution of transactions.

\* Both previous products (dex and wallet) will be audited by Certik.

# **CREATION OF THE ECOSYSTEM.**

## **(1.3)**

The third product released by our team will be the SPX Financial Academy, the training academy of Spacelon X.

The products to which each token holder will have access are the following:

- **LEARNING PLATFORM:** Exclusive platform from which you can access: training video courses, teaching material relating to classic finance and crypto and weekly live with industry experts;
- **H24 SUPPORT:** in the private and exclusive telegram group for all Academy members (learning platform);
- **TELEGRAM VIP:** Private group for the more experienced, mainly dedicated to the discovery and discussion of other projects. In this group we will DYOR together, send safe projects and discuss the various strategies to use.

There will be experts who will analyze the various projects and, if they are considered promising, they will be shared with the whole group. Once shared, will begin a discussion and all members will be able to ask questions regarding the project in question.

**How can I have access to the academy?**

To be part of the SPX Financial Academy you must hold SPX tokens.

**How many tokens should I hold?**

The minimum number of tokens to access the learning platform is 3.5 billions SPX tokens.

To access also to the VIP group the minimum required is 7 billions SPX tokens.

**How do I prove to the team that I hold the minimum required number of tokens?**

At the time of registration, you will be asked for the address of your wallet and the amount you hold will be verified on BSC Scan.

\* the number of tokens (\$ SPX) required varies according to the increase or decrease in the market value of the token. Will be made a daily check of the wallets participating in the learning platform, if wallet no longer holds the minimum number of tokens required it will be excluded from the platform.

# CHARITY.

We have explained our vision very clearly, read carefully the paragraph “OUR VISION”.

We intend to pursue the above very precisely. For this reason, the creation of the Academy will be reflected directly in the charity.

Our main objective is to provide as much help as possible to countries with severe disruption at school and education level, by making donations to associations that will directly help the most disadvantaged, for example UNICEF.

## Why is this one of our goals?

617 million children and adolescents worldwide are unable to achieve minimum proficiency in reading and math, even though two thirds of them attend school. Even worse, 1 in 5 children of school age does not access education. Children in rural areas are more than twice as likely to be excluded from primary school than their urban peers. In conflict zones, 27 million children are out of school.

Source: "[UNICEF](#)".

This is just the tip of the iceberg, the problem is really big, not being educated means not being autonomous, not being autonomous means not having decision-making skills and always depending on someone.

Therefore, with our Academy we will try to contribute to the literacy of the less fortunate and we are sure that thanks to SPX and its community we will be able to do so.

## In practice, what will we do?

The SPX team with the help of the community will make donations of school supplies to children most in need and less fortunate. We will go to donate everything they need to have a decent basic school education, then we will donate: books, backpacks, pens, notebooks and everything they need to go to school.

# ROADMAP.

## PHASE 1

- Website development
- Setup Social Media
- Smart contract development
- KYC & AUDIT
- TIME SQUARE BILLBOARD

## PHASE 2

- Launch on PancakeSwap
- AMA's
- Coingecko
- CMC
- Official merchandise store

## PHASE 3

- Airdrop event
- CEX LISTING
- Influencer marketing
- Start of SPX ecosystem development

## PHASE 4

- Sacelon DEX
- Spacelon Mask
- SPX Financial Academy
- Charity
- Wallet and Dex Certik

# CONCLUSION.

The founders and the entire team firmly believe in the vision and that the networking effect of its community will drive real change in the industry through its approach mentioned in this whitepaper.

Spacelon X is proud to work alongside such an incredible community and is firmly convinced that thanks to it it will be able to achieve every set goal, developing the entire ecosystem successfully.

# DISCLAIMER.

Past performance is not necessarily indicative of future results. Past performance is no guarantee of future returns and there is no guarantee that the market price of coin will fully reflect their underlying net asset value.
